Call for Papers

Prospective authors are invited to submit papers on the above listed topics. Each author can participate in at most three papers. A **two-page digest** for each paper should be submitted via the conference management system.

The evaluation process is managed by Conference Management System. The criteria are: Contribution of the submission; Quality of Content; Originality and level of innovativeness; Relevance for the "Call for Papers"; Quality of presentation; and Overall recommendation. All criteria are given points (maximum number of points 100).

Each paper is reviewed by at least two reviewers. If reviewers have conflicting opinions about a submission, extra reviewers are assigned to that submission and final decision is given by the Program Committee and General Chair

Publication

All accepted and presented papers will be published in the Conference Proceedings.
